

## RESPONSE TO WOOROLOO FIRE

Over the past 24 hours, a number of SCEA families and staff members have been impacted by the Wooroloo bushfire to the north-east of Perth, which is impacting the shires of Mundaring, Chittering, Northam and City of Swan. We have been advised that one family has lost their home, and many others have been forced to evacuate. For those of you impacted directly, our thoughts and prayers are with you.

In response to these fires, we expect that some staff members in our schools will not be able to provide the Learning Assistance (LA) resources/suggestions as promised in yesterday's CEO Update. It is also acknowledged that some students from the areas impacted will not be able to engage in any learning activities.

To our staff and families who have had to evacuate homes, please make your health and well-being your highest priority.

If there is to be a change in the provision of LA resources/suggestions from your school, your Principal will be providing details.

Thank you for your understanding and ongoing support of our SCEA schools.

Blessings,

**Dr Graeme Cross**

Chief Executive Officer
